

AEBG - SCAEC Steering Committee
Friday, November 20, 2015
Meeting Notes

Attendees: Andy Stone, James Weckler, Lysa Tabachnic, Jack Carroll, Nancy Bilicich, Rachel I. Perez, Rachel Mayo, Todd Livingstone, Carrie Mulcaire, Rock Pfothenhauer, and Holly Chase.

OVERVIEW

- Brief overview of the difference between AB86 and ABEG was provided to Steering Committee members.
- The Steering Committee role is to make recommendations to their Consortia representative, but is not allowed to vote. Decisions made are final once approved by the Consortia representatives.
- Steering Committee members will meet to decide who they want in their working groups.
- Working groups will help decide on budget expenditures.

BUDGET

- Funding is broken down this year between MOE and Consortia; next year all funding will be one block grant.
- Andy Stone announced a new apprenticeship grant coming down the line soon

PROGRAM AREAS AND WORKING GROUPS

- The new program areas have a career pathways and workforce focus.
- The Student Summary Reports is a new element. Performance focus on reporting will increase chance of more funding.
- Rachel suggested reading the notes from the previous working groups to know where work was left off to not start from scratch. Notes from previous group work can be found on the Consortium website.
- Align working efforts. Change the silos mentality and work as a collective.
- Lisa Tabachnic recommended including the jail as one of the working groups. She has made this recommendation before.
- Capture data of program work now to help show performance outcomes by the end of 15-16 year.
- Serving more students = hiring more teachers. Doesn't seem like a realistic deadline to have outcomes by June.
- Marketing not included in the plan submitted by the Consortia reps. Need a regional and local marketing approach. The Steering Committee recommends amending the current consortium plan to include funds for marketing with a regional goal and local focus. A social media platform could also be considered as part of the marketing efforts.

- The Steering Committee formed seven working groups, and they recommended 1-2 people from each member's institutions for each group. Working groups can pick their lead. Stipends will be given to leads of working groups.

ESL

Amy Jewell – Pajaro

Teresita Marchello – Pajaro

Jason Malone - Cabrillo College

Santa Cruz rep?

CTE/Apprenticeship

Andy Stone – Workforce Development Board

Jack Carroll – Pajaro

Leslie De Rose – Cabrillo College

Mark Hodges? – ROP

Santa Cruz City Schools?

Data/Research

Terrence Willett /Terra Morris – Cabrillo College
